Retain the invoice post date upon amendment of the AP invoice date			✓												
Developed with Visual FoxPro 9 (SP2) and Crystal Reports XI	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓
Supports all editions of Microsoft SQL Server 2005	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓
Expanded and updated sample data (Current fiscal year is 2010)	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓
Getting Started Guide	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓
Updated Electronic Manuals	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓
Updated Online help	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓
Export data from any grid to Microsoft Excel	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓
Option to paste Excel data into any grid	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓
Option to define additional shortcut menu options for grid controls	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓
User-specific extended security required to export data from the Lookup windows	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓
Ability to save grid column order and width settings by user	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓
Right-mouse click on input fields to access shortcut menu for cut, copy, paste, e-mail, phone, lookup and other options	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓
Implement <Alt+PgUp> and <Alt+PgDn> or <Ctrl+PgUp> and <Ctrl+PgDn> function keys to move across page tabs	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓
Standardize the use of <Alt> and <Ctrl> combination function keys for shortcuts within or outside a window	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓
Grid controls, NotePad, and page frame objects are resized to display more data when a window is enlarged	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓
Ability to attach and purge files in Transaction and Maintenance records		✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓			
Adding number of recurring cycles, recurring end date, and active/inactive status in all Recurring Transaction functions			✓		✓	✓			✓						
Speedy journal entry input by copying and pasting from Microsoft Excel data		✓													
Allow the Payroll module to integrate with both the SQL and LAN products	✓							✓							
Support fiscal year length of more or less than 365 or 366 days	✓														
Support password complexity to meet Sarbanes-Oakley requirements	✓														
Option to set up password expiration	✓														
Track history of invalid logon attempts	✓														
Option to lock out a user account after a predefined number of invalid logon attempts	✓														
Option to disallow re-use of old passwords	✓														
Option to disallow users to change password	✓														
Option to require password change at next logon	✓														
Ability to copy users and user groups to speed up security setting process	✓														
Option to select or deselect all entries of extended security during user setup	✓														
Option to disable menu options for functions to which a user has no access right	✓														
Option to define the sequence in which modules will be displayed on the module selection drop-down list	✓														
Viewing of function access rights setup by user group, by user or by function	✓														
Viewing of extended security setup by user or by security feature	✓														
Reports to print function access rights and extended security settings	✓														
Regroup Module Setup parameters for consistency and ease of use		✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓			
Option to display end-user's company logo on the AccountMate desktop	✓														
Option to display AccountMate Solution Provider's company logo on the AccountMate desktop	✓														
A checkbox on column headers replaces the Mark All and Unmark All buttons	✓		✓	✓	✓	✓	✓		✓	✓	✓	✓			
Allow printing of long company logo without modifying the report layout	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓			
Option to post JE batch immediately upon journal entry creation		✓													
Speed up journal entry input by adding Description and Reference fields to the journal entry grid and eliminating the Detail window		✓													

AccountMate 7.3 for LAN Feature Comparison with VAM/LAN 3.0

Features	System Manager	General Ledger	Accounts Payable	Purchase Order	Accounts Receivable	Sales Order	Inventory Control	Payroll	Bank Reconciliation	Consolidated Ledger	Manufacturing	Contact Manager	Kitting	Lot Control	Upsell Management
Option to allow only authorized GL reference accounts to be used on each vendor's invoices			✓												
Adding an Alias field to distinguish multiple division of the same customer when multiple customer records are set up with the same company name			✓	✓											
Checks can be printed during invoice posting without accessing the Print Check function from the Reports menu.			✓												
Separate credit card payment processing from the Post AP Invoice function			✓												
Ability to post multiple credit card payments against a single AP invoice			✓												
Simplified process to void credit card payments for AP invoices			✓												
Option to print MICR code, signature, company logo on blank check stock			✓					✓	✓						
Support long check form to print twice as many lines of invoice details			✓					✓							
Maintaining vendor website addresses			✓	✓											
Retain all related data when archiving vendor records and improve performance of some reports			✓	✓											
Support multiple warehouses on one purchase order				✓
