PR	PREMPY, PREMPF, PREMPS	Contractor Master
PR	PREMPF, PREMPS, PREMPL	Tax Withholding Records
COMMON	COMISC	Miscellaneous Code
COMMON	COSTAX	Sales Tax Code
COMMON	COSTEN	Tax Entity

AccountMate Rename Wizard

The AccountMate Rename Wizard is a special utility designed to facilitate the maintenance of master records by allowing the user to rename existing data in key AccountMate fields. The following are key AccountMate fields that can be renamed by user:

Rename Group	Field for Rename
Inventory	Inventory Item
Inventory	Warehouse
Inventory	Specification Code
Inventory	Bin
Customer	Customer #
Customer	Revenue Code
Vendor	Vendor #
Payroll	Earning Code
Payroll	Deduction Code
Others	Pay Code
Others	Bank #
Others	Currency Code

Others	Activity Type
Others	Miscellaneous Code

Bug Fixes

The following are the list of issues fixed as of April 17, 2007:

Control #	Module	Description	Fixed In
10009028	SM	DW: The system returns a validation that a field is empty if source value is zero.	SYSTEM MANAGER
10009383	SM	DW: Using the Data Wizard displays the SQL Server Login window at every click	SYSTEM MANAGER; DW.H; DWCONFIG7.DBF

Hardware/Software Requirements

Workstation Requirements

CPU	Intel-based Pentium II
Memory	128MB
Hard Disk	100MB Free Space
