

Founded in 1984, AccountMate develops and markets fully customizable business management software designed to meet the growing needs of small to medium-sized businesses. Systems range from single user versions to those that support over hundreds of users simultaneously.

AccountMate software is available for local installations or cloud deployment. It is distributed exclusively through a worldwide channel of authorized solution providers.

This leading-edge application combines the full functionality of our award-winning AccountMate system with the power of Microsoft's SQL Server. It offers AccountMate clients enhanced investment protection for the long haul with superior scalability, uptime performance, stronger data security and easier integration with other software applications.

AccountMate 11 for SQL and Express Software Requirements

Software Requirements			
	Database Server	File Server* (optional)	Workstation
Supported Operating Systems	Windows Server 2019 Standard Edition or Windows Server 2016 Standard Edition	Windows Server 2019 Standard Edition or Windows Server 2016 Standard Edition	Windows 10 or Windows 8.1
AccountMate 11 for SQL Supported Database Management Systems	Microsoft SQL Server 2017 Standard/Enterprise/Express Edition or Microsoft SQL Server 2016 Standard/Enterprise/Express Edition (SP2)	Not Applicable	Not Applicable
AccountMate 11 for Express Supported Database Management Systems	Microsoft SQL Server 2017 Express Edition or Microsoft SQL Server 2016 Express Edition (SP2)	Not Applicable	Not Applicable

*File Server

A File Server is optional but recommended to enhance performance. You can install the AccountMate 11 for SQL/Express application on a file server and map all workstations to it, freeing up resources on the database server to obtain optimum performance on its data processing duties. Under this setup, you do not need to install the AccountMate 11 for SQL/Express application on each workstation. You only need to install the run-time library files on each workstation. To do this, select the "Compact" installation type when running the program installer.

Note: Hardware requirements will vary with the Operating System and SQL Server version you install. Please confirm the Hardware and Software Requirements for the Operating System and SQL Server version that you plan to use with this AccountMate version. Provisions must also be made for any additional applications and files installed with AccountMate.
