

Founded in 1984, AccountMate develops and markets fully customizable business management software designed to meet the growing needs of small to medium-sized businesses. Systems range from single user versions to those that support over hundreds of users simultaneously.

AccountMate software is available for local installations or cloud deployment. It is distributed exclusively through a worldwide channel of authorized solution providers.

This leading-edge application combines the full functionality of our award-winning AccountMate system with the power of Microsoft's SQL Server. It offers AccountMate clients enhanced investment protection for the long haul with superior scalability, uptime performance, stronger data security and easier integration with other software applications.

AccountMate 10 for LAN Software Requirements

Software Requirements		
	File Server	Workstation
Supported Operating Systems	Windows Server 2019 Standard Edition or Windows Server 2016 Standard Edition	Windows 10 or Windows 8.1
Supported Database Management Systems	Microsoft SQL Server 2019 Standard/Enterprise/Express Edition or Microsoft SQL Server 2017 Standard/Enterprise/Express Edition or Microsoft SQL Server 2016 Standard/Enterprise/Express Edition (SP2)	Not Applicable

Notes:

- SQL Server holds Payroll data only and is required only when you install the Payroll module.
- Hardware requirements will vary with the Operating System and SQL Server version you install. Please confirm the Hardware and Software Requirements for the Operating System and SQL Server version that you plan to use with this AccountMate version. Provisions must also be made for any additional applications and files installed with AccountMate.
