

F9 Product Release History

for AccountMate SQL

3/7/2017

Date	Type	Description	Versions
3/1/2017	Issue	Migrate to BSPECR wasn't working, exposed functions to be used by Migrate	F9V5.dll (5.4.17.0) and F9Viewer.dll (5.4.13.0)
1/23/2017	Enhancement	Addin Options Dialog added ability to turn Diagnostic file on/off and choose Diagnostic location AppData\F9V5.	F9V5.dll (5.4.16.0) and F9Viewer.dll (5.4.12.0)
1/23/2017	Enhancement	Refresh Report Controls messages improved with lists of Data Sources that Controls point to and current F9 Setup, so user can determine why Report	F9V5.dll (5.4.16.0) and F9Viewer.dll (5.4.12.0)
1/23/2017	Enhancement	Change Data Source for Report Controls improved with lists of Systems, Companies and Status showing if they can be refreshed.	F9V5.dll (5.4.16.0) and F9Viewer.dll (5.4.12.0)
1/23/2017	Issue	Removed code in F9 Viewer that was changing global Excel Comment settings to hide Comments and Indicators.	F9Viewer.dll (5.4.12.0)
12/15/2016	Issue	F9 Viewer and V5 Addin got errors if Account segment values were empty. Now in that case they add asterix (*).	F9V5.dll (5.4.15.0) and F9Viewer.dll (5.4.11.0)
10/20/2016	Issue	Converting F9 reports to Viewer and Email didn't work if extension of the file was in capital letters (i.e. XLSM...)	F9V5.dll (5.4.14.0), F9Viewer.dll (5.4.10.0)
10/20/2016	Update	Added F9 Viewer support for external links that are part of Excel formula for publishing with Enabled Parameters option. External links are still not supported as parameters of F9 Viewer formulas or from publishing option with Disabled parameters.	F9V5.dll (5.4.14.0), F9Viewer.dll (5.4.10.0)
10/20/2016	Issue	Task panes failing when DDE Timeout was too low. Error handling improved, so Task Panes are not created if Timeout error occurs.	F9V5.dll (5.4.14.0), F9Viewer.dll (5.4.10.0)
10/20/2016	Issue	Refresh Report Controls was not updating controls pointing to the same path with uppercase.	F9V5.dll (5.4.14.0), F9Viewer.dll (5.4.10.0)
8/24/2016	Enhancement	Internal list processing has been improved for speed.	VamSQL.dll (5.0.7.0)
8/2/2016	Issue	F9 System has multiple commas with port number. Port number after second comma truncated.	F9V5.dll (5.4.13.0), F9Viewer.dll (5.4.9.0)
8/2/2016	Update	Additional info added in a case of DDE Error.	F9V5.dll (5.4.13.0), F9Viewer.dll (5.4.9.0)
8/2/2016	Issue	Report Wizard fails when selecting a Company with no existing data.	F9V5.dll (5.4.13.0), F9Viewer.dll (5.4.9.0)
5/27/2016	Issue	Scheduled tasks would fail to load Excel in scenarios where "ClickToRun" versi	F9V5.dll (5.4.12.0)
5/11/2016	Update	Additional diagnostic reporting assembly version.	F9V5.dll (5.4.12.0), F9Viewer.dll (5.4.8.0)
5/9/2016	Issue	Regional Settings for negative numbers set to "0" instead of "-" would lead to an exception in task panes.	F9V5.dll (5.4.12.0), F9Viewer.dll (5.4.8.0)
4/29/2016	Update	Additional diagnostics in list functionality.	F9V5.dll (5.4.12.0), F9Viewer.dll (5.4.8.0)
4/4/2016	Update	To assist better with support issues we can turn on registry key to "Diagnostic"=true. In addition, new key is added "DiagLocationAppData"=true which means diagnostic file will go to usual AppData location. Otherwise, if "DiagLocationAppData"=false diagnostic file will be created in C:\F9V5\F9Logs or C:\F9Viewer\F9Logs.	F9V5.dll (5.4.12.0), F9Viewer.dll (5.4.8.0)

4/4/2016	Update	When starting with new install, F9V5 and F9Viewer task panes will be wider	arF9V5.dll (5.4.12.0), F9Viewer.dll (5.4.8.0)
4/4/2016	Enhancement	New functions added F9R(range) and F9R_VW(range) that take in a range of	F9V5.dll (5.4.12.0), F9Viewer.dll (5.4.8.0)
4/4/2016	Enhancement	If formula has multiple Companies, Drill Balances outputs table for each Company on a new Sheet.	F9Viewer.dll (5.4.8.0)
1/5/2016	Issue	Inconsistent analyze results	VamSQL.dll (5.0.6.0)
11/19/2015	Update	F9 Report Manager Info form pops up first if user clicks on F9 Scheduler.	F9V5.dll (5.4.10.0)
11/6/2015	Update	Added feature to Migrate BSPEC formula to BSPECR for reports that are using ranges of cells as parameters. Menu item added in F9 Ribbon under Migrate F9.	F9V5.dll (5.4.10.0)
11/6/2015	Issue	Publish to Viewer and Viewer to F9, support for BSPECR formula.	F9V5.dll (5.4.10.0)
11/6/2015	Issue	Email to F9 - unable to publish formula back to F9.	F9V5.dll (5.4.10.0)
11/6/2015	Issue	Number format (thousands and decimal separator) are taken from Excel or Regional settings (issue with non-English Excel	F9V5.dll (5.4.10.0), F9Viewer.dll (5.4.7.0)
11/1/2015	Enhancement	Compatible - Office 2016	F9V5.dll (5.4.10.0), F9Viewer.dll (5.4.7.0)
9/30/2015	Issue	ActiveX Error if opening Task Pane after F9 Publish to Viewer/Email in excel 64bit.	F9V5.dll (5.4.9.0)
9/30/2015	Issue	If Excel cell is in the Edit mode do not allow user to Publish to	F9V5.dll (5.4.9.0)
9/30/2015	Issue	Viewer "Error in Formula" showing when calculate. Published formula had space at the beginning.	F9V5.dll (5.4.9.0)
9/30/2015	Issue	Error in Publish to F9 if user was editing sheet, cells were losing Data Type.	F9V5.dll (5.4.9.0)
9/30/2015	Issue		
9/30/2015	Enhancement	Microsoft .NET Framework 4.5 to improve performance of F9 and formulas.	F9V5.dll (5.4.9.0), F9Viewer.dll (5.4.6.0)
9/30/2015	Issue	Period Report Control/DropDown added "YTD 1 Budget" to "YTD 12 Budget"	F9V5.dll (5.4.9.0), F9Viewer.dll (5.4.6.0)
9/30/2015	Issue		
9/30/2015	Issue	Wrong F9 Info message when switching off/on "Show Segment Descriptions" in F9 Options dialog.	F9Viewer.dll (5.4.6.0)
8/3/2015	Issue	Connection via SQL id/pwd would fail under certain circumstances. Fixed.	VamSQL.dll (5.0.5.0)
7/23/2015	Issue	Timeout error message was incorrectly returned for formulas generated by task panes. Error is now handled properly.	F9V5.dll (5.3.10.0)
7/10/2015	Issue	Invalid settings for System server and database not handled appropriately and could cause crash. Fixed.	VamSQL.dll (5.0.4.0)
7/10/2015	Issue	ODBC driver removed from machine but still referred to in settings not dealt with correctly. Fixed.	VamSQL.dll (5.0.3.0)
6/24/2015	Enhancement	F9 Zero Suppress added support for grouped sheets.	F9V5.dll (5.3.9.0) and F9Viewer.dll (5.3.7.0)
6/12/2015	Issue	F9 Publish to Viewer/Email now automatically switches calculation mode to Manual.	F9V5.dll (5.3.9.0)
6/12/2015	Issue	F9 Publish to Viewer/Email saves file in temporary file first while processing, than saves in desired location. This is done in order to avoid locking files if user save them in Cloud based storage (like OneDrive, Drop Box, Google	F9V5.dll (5.3.9.0)
6/8/2015	Issue	F9 Publish to Viewer support for formulas referencing Table cells.	F9V5.dll (5.3.8.0)
6/8/2015	Issue	F9 Scheduler, Save Report to Location not holding manually typed input.	F9V5.dll (5.3.8.0)
6/8/2015	Issue	Publish to Email and Viewer added error handling for saving file to the new l	F9V5.dll (5.3.8.0)
6/8/2015	Issue	Support for mapped drives in lower case.	F9V5.dll (5.3.8.0)
6/8/2015	Issue	Addin Options dialog GPF id clicked before F9 Setup.	F9V5.dll (5.3.8.0)
6/8/2015	Issue	Zero Suppress was not working if number was formatted as text.	F9V5.dll (5.3.8.0)
6/8/2015	Issue	F9 outputs are allowed if worksheets are grouped.	F9V5.dll (5.3.8.0)
6/8/2015	Issue	F9 Table, adding Data Bar now possible for Shared Workbooks.	F9V5.dll (5.3.8.0) and F9Viewer.dll (5.3.6.0)

4/15/2015	Issue	F9 Table Task Pane was passing just first account if comma separated list of accounts was in the Whole Account text box.	F9V5.dll (5.3.7.0)
4/15/2015	Issue	In some cases companies with similar names (Demo, Demo1, Demo2) were not distinguished in Task Panes	F9V5.dll (5.3.7.0) and F9Viewer.dll (5.3.5.0)
4/15/2015	Issue	Prevent Drill Table Balances Task Pane to open if formula in the cell returns F9 Error.	F9Viewer.dll (5.3.5.0)
3/11/2015	Issue	Publish to Viewer and Publish to Email failed to save new file in root	F9V5.dll (5.3.5.0)
2/18/2015	Enhancement	Publish to Email functionality changed to save F9 formulas using Open XML technology opposed to the old way of saving them in Comments which was increasing size of spreadsheets and slowing Excel.	F9V5.dll (5.3.4.0)
2/18/2015	Issue	Publish to Viewer did not work if Workbook has a Chart Sheet.	F9V5.dll (5.3.4.0)
2/10/2015	Issue	F9 Scheduler, Validation of User Credentials fixed if the server is using Context Options binding; Loading Tasks based on existing batch and PowerShell files in F9V5\F9Scheduler folder.	F9V5.dll (5.3.3.0)
1/5/2015	Issue	Reduce the number of F9 Error messages when opening Task Panes if the company saved from previous run does not exists any more.	F9V5.dll (5.3.3.0)
1/5/2015	Enhancement	Added logic for F9 Hosted in both V5 and Viewer to read Enabled users from	F9V5.dll (5.3.3.0) and F9Viewer.dll (5.3.3.0)
12/17/2014	Issue	Excel 2013, when the second instance of Excel is open, buttons on F9 Ribbon	F9V5.dll (5.3.2.0)
12/17/2014	Enhancement	Added support to Migrate F9 Report Controls to Change Data Source from whatever is in the report to the current System and also pick the Company.	F9V5.dll (5.3.2.0)
12/17/2014	Issue	Output of Inquire/GL Paste Task Pane by Company or Segments was creating wrong reference to Period in =DESC() formula.	F9V5.dll (5.3.2.0)
12/17/2014	Issue	F9 to Email and Email to F9 functions were failing when an existing Comment was empty.	F9V5.dll (5.3.2.0)
12/17/2014	Issue	Add Topic to Formula not working correctly if Excel functions are inside of F9 Functions.	F9V5.dll (5.3.2.0)
12/17/2014	Issue	Support if #REF cell is referenced as a parameter in an F9 Formula to return #	F9V5.dll (5.3.2.0) and F9Viewer.dll (5.3.2.0)
12/17/2014	Issue	Support for changes in F9 Installs; new registry keys store how to lookup F9 settings (AppData or Registry)	F9V5.dll (5.3.2.0) and F9Viewer.dll (5.3.2.0)
12/17/2014	Issue	Prevent F9 of calculating formulas if F9 User is Disabled.	F9V5.dll (5.3.2.0) and F9Viewer.dll (5.3.2.0)
10/22/2014	Feature	Add saving of SQL password per user request.	VamSQL.dll (5.0.2.0)
10/22/2014	Issue	Choosing system via selecting AMSETUP.AM would not retain setting.	VamSQL.dll (5.0.2.0)
9/11/2014	Enhancement	Addin Options has now a check box "Use Report Manager to Schedule Tasks". If F9 RM is not installed that check box is grayed out and F9 Scheduler will be used instead.	F9V5.dll (5.3.1.0)
9/11/2014	Issue	Calculate button on F9 Ribbon is checking if the report is a valid F9 Viewer report.	F9Viewer.dll (5.3.1.0)
9/10/2014	Issue	F9 Task Panes not saving settings for Excel 2013	F9V5.dll (5.3.0.0)
9/10/2014	Enhancement	F9 Task Panes creating =DESC() formula to include all parameters for F9 professional. That may reduce calculation time.	F9V5.dll (5.3.0.0)
9/10/2014	Enhancement	New Open XML technology applied to F9 Publish to/from Viewer and F9 Viewer. Instead of converting formulas to Comments, F9 Viewer now has formulas that are ending with _VW. Calculation and publishing is much	F9V5.dll (5.3.0.0) and F9Viewer.dll (5.3.0.0)
5/6/2014	Issue	Prevent F9 Task Panes of creating Tables, Pivot Tables, change Report Controls or delete Sheets if Excel Workbook is Shared. This is an Excel	F9V5.dll (5.2.7.0) and F9Viewer.dll (5.2.7.0)
5/6/2014	Issue	When calling Drill Balances Table - replace missing parameters in Viewer formulas with Setup defaults from the time of Publishing	F9Viewer.dll (5.2.7.0)
3/26/2014	Issue	Support for F9 Report Manager, if it is installed we call RM instead of F9 Scheduler. For F9 hosted, Scheduler button is disabled.	F9V5.dll (5.2.6.0)
3/26/2014	Issue	Analyze task Pane was not using correct period for F9 Professional.	F9V5.dll (5.2.6.0)
3/26/2014	Issue	Publish to Viewer to set Workbook in manual calculation mode.	F9V5.dll (5.2.6.0)
3/4/2014	Issue	Added support for XLSM file type in F9 Scheduler.	F9V5.dll (5.2.5.0)

3/4/2014	Issue	Changed default DDE Timeout in Addin Options to 60.	F9V5.dll (5.2.5.0) and F9Viewer.dll (5.2.6.0)
3/4/2014	Issue	CalcRange(), CalcWorkbook() and CalcWorkSheet() supported in VBA Macros, example: Application.ExecuteExcel4Macro "CalcWorkSheet()"	F9Viewer.dll (5.2.6.0)
11/1/2013	Enhancement	Compatible - Windows 8	F9V5.dll (5.2.1.0) and F9Viewer.dll (5.2.5.0)
8/26/2013	Enhancement	Compatible - Office 2013	F9V5.dll (5.2.8.0) and F9Viewer.dll (5.2.8.0)
8/13/2013	Enhancement	Adding support for F9ToEmail in VBA Macros	F9V5.dll (5.2.1.0)
6/13/2013	New release	F9 Viewer released, F9 V5 Addin has support to Publish To/From Viewer.	F9V5.dll (5.2.0.0), F9Viewer.dll (5.2.0.0)
4/13/2013	Enhancement	Added support for Excel 2013 (32bit and 64bit) and compatibility	F9V5.dll (5.1.20.0)
